Why Axway?

R&D

>550hc
6 countries
Agile
Distributed

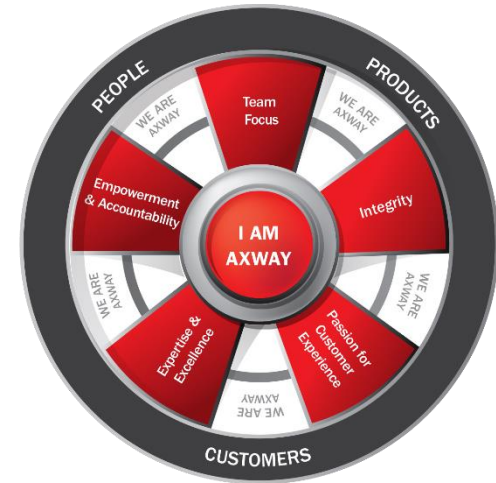

Annecy 70
Puteaux 100
Lyon 15

Company

Strong
French & international
Many challenges
Pure software company

People

Axway values

- Career opportunities
 - 2 Master 2 interns planned in Annecy
 - 1 Master 1 intern planned in Annecy
 - 2 intern recruitments planned in Annecy
 - Opportunities in Lyon or Puteaux (Paris)

Open Internships

RuleEngine

C language development

- Continuous integration: Jenkins, Maven, Artifactory
- Environment: Windows, Unix
 - Agile methodology

RuleEngine is a component of one of the historical Axway products. Used in many (all) bank in France, this product is critical for users. The project will consist in developing some features of RuleEngine in a 5 people team located in Annecy.

Track & Trace

Java, Flex development

- Continuous integration: Jenkins, Maven, Artifactory
- Environment: Unix, Windows, Oracle
 - Agile methodology

Track & Trace is a product that helps tracing the lifecycle of goods, mainly for the pharmaceutical industry. The project will consist in developing some features of the future version, within a 2 teams project between Annecy and Noida (India). Thus English is a must have. Flex is not absolutely mandatory.

Project X

For the best Master 1 candidate.

Topic/Technology open to discussion if you are the best candidate...
